

## MONTHLY ASSESSMENT – II (Ideation and Product Development Phase)

(DATE : \_\_/\_\_/\_\_)

1. Explain briefly Ideation thought process and efforts of your team to reach ideas for listed problems.

The main listed problems in our ideation thought process are:-

→ Paid website                      → Not providing all features at once  
→ Not good AI                      → Invalid extension

2. Enlist any five effective ideas to address the probable listed problems with reason.

The first problem is paid website and second problem is not providing all extension at once, as we need a website for converting the pdf and documents in case of this we need good AI and proper response that other website are not providing as expected so we are trying to get it.

3. Explain the most effective possible solution proposed for the problem.

Well, we need a auto decrypted file and password encrypted file also pdf to any file extension so that expense of paid website can be reduced.

4. Explain the features, functions and working principles/technology/pattern of your proposed solution.

The features for proposed solution are:-

- 1) Password encrypted file
- 2) Auto decrypted file
- 3) Pdf to any file extension.

5. Enlist major advantages and disadvantages (atleast three) of the proposed solution.

Advantages:-

- All extensions are provided in one website
- File protected
- Interface is good

Disadvantages:-

- If the file contains any harmful material then it will not detect the file.

6. Briefly mention refinement on PDC based on User/Stakeholder's feedback on your concept.

On the basis of PDC, the user/stakeholder's feedback is that app is user friendly, good performance, bug-free and easy to use.
